

# Eduardo Marques

Full-Stack Software Engineer

Ubatuba, SP, Brazil | [linkedin.com/in/eduardopereiramarques](https://www.linkedin.com/in/eduardopereiramarques) | (51) 99233-1557 | [connect@eduardomarques.dev](mailto:connect@eduardomarques.dev)

## PROFESSIONAL SUMMARY

Full-stack web developer with 3+ years of experience building and scaling production applications across Vue.js, Laravel, and TypeScript stacks. Track record of measurable impact: improved platform performance by 70% for an international client and cut task delivery time by up to 75% by adopting the team's AI-assisted development workflow (Claude, Cursor). Strong communicator with advanced English and a long-standing background in public speaking.

## WORK EXPERIENCE

### Mid-Level Software Engineer — Animals First

March 2024 – Present

[animalsfirst.com](https://animalsfirst.com) | Full-time

- Promoted from Junior to Mid-Level Software Engineer.
- Build and maintain core modules for animal adoption and care management used by nearly 100 shelters, with databases exceeding 200,000 records of animals, people, and partners.
- Developed the medical and veterinary module's core logic, and support other engineers working in that area.
- Review code and collaborate across a team of 5+ developers.
- Develop cart, reports, financial and user management systems, and migrate legacy Vue 2 modules to Vue 3.
- Use an AI-assisted development workflow (Claude, Cursor) as part of daily work, significantly speeding up delivery on both large, multi-day tasks and smaller tasks.

**Stack:** Vue 2/3, Laravel, TypeScript, MongoDB

### Full Stack Web Developer — Battoni Dev

January 2023 – February 2024

[battoni.com.br](https://battoni.com.br)

- Progressed from front-end developer to full-stack, integrating back-end systems and APIs.
- Applied CDD and DRY architecture principles to improve code quality and long-term maintainability.
- Enhanced project SEO performance to 90%+, improving organic search visibility.
- Designed and built UI components and features from scratch, including UI/UX design work in Figma.

**Stack:** Vue 3, Laravel, TypeScript, GraphQL

### Contractor Web Developer — Vyudu

August 2023 – February 2024

[vyudu.com](https://vyudu.com) | Independent contract

- Delivered custom software solutions as an independent consultant for clients in the US and overseas.
- Improved platform performance by 70% through targeted optimization and bug resolution.
- Resolved bottlenecks across multiple concurrent client projects while maintaining direct client communication.

**Stack:** JavaScript, Webflow, Stripe, Shopify

## EDUCATION
